

CAPABILITY STATEMENT

Panash Tech LLC | Tampa, Florida | panashtech.com

CORE COMPETENCIES

- **Custom software engineering:** web applications, SaaS platforms, internal tools, enterprise systems
- **IT staff augmentation:** named, vetted, US-based technical personnel placed on client and prime contractor teams
- **QA and automation testing:** functional, regression and integration testing, automation frameworks
- **Database architecture:** Oracle and PL/SQL, MySQL, PostgreSQL; migration, tuning, reporting layers
- **Cloud and release engineering:** CI/CD pipelines, environment builds, release management
- **Applied AI and automation:** conversational assistants, document processing, workflow automation

DIFFERENTIATORS

- **We run our own software in production.** ClaimTrack Pro is a live commercial SaaS we built, operate and support. Three further demonstration builds are publicly runnable at panashtech.com/demos
- **Own SAM.gov registration.** Active UEI and CAGE, so a prime can onboard us through a standard subcontractor process with no new entity to stand up
- **Senior team, direct access.** The people who scope the work write the code
- **Weekly working demos** rather than status decks, and full lifecycle in-house from design through post-launch support
- **US-based performance** for all government work

DEMONSTRATED WORK

- **ClaimTrack Pro:** OEM warranty tracking and claim recovery SaaS for field service contractors; Stripe payments, dispatch, customer portal. claimtrackpro.com
- **InvoiceFlow:** automated business workflow demonstration; one submission drives customer record, invoice, confirmation and follow-ups
- **ServiceBot:** conversational AI assistant with lead capture and qualification
- **OpsBoard:** live operations and analytics dashboard with A/R aging and revenue reporting
- **Internally developed platforms:** education management (Flutter, Laravel) and appointment booking with prepayment (React Native, PHP)
